

suicideTALK

FREE Training Opportunity Suicide Awareness

Why take suicideTALK?

Local community groups, businesses, and organisations are equipped to better understand, have open discussions about, and help prevent suicide.

What will I learn?

LivingWorks suicideTALK is an introductory program that teaches about suicide and how you can make a difference in your community.

- Examines why people experience thoughts of suicide
- Encourages open discussion about suicide and attitudes towards it
- Explores ways people can help to prevent suicide

These workshops are supported by your local Suicide Prevention Network, and funded by the Central Queensland, Wide Bay, and Sunshine Coast PHN, as part of the National Suicide Prevention Trial.
