

YOU ARE INVITED

TO PARTICIPATE IN THE 'MUNJOORUM (COMING TOGETHER) FIRE PROJECT'

Be part of five community workshops aiming to provide local responses and recommendations to Federal government about fire and land management practice in the Wide Bay, Curtis Coast and North Burnett regions.

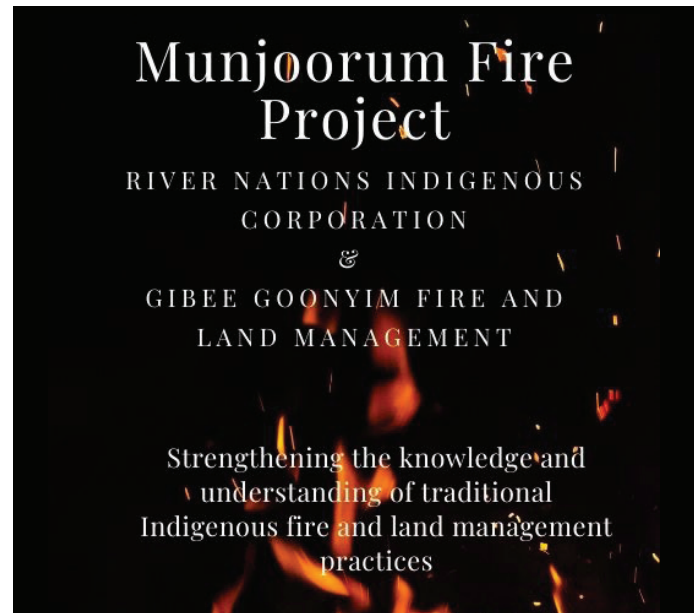

The Munjoorum (coming together) Fire Project workshops bring together community, Traditional Custodians of the land, Indigenous Elders, government and non-government stakeholders to discuss solutions for managing fire on country.

This project will discuss how knowledge held by Traditional Owners and used to manage Country for over 65000 years has relevance in today's fire and land management practices. We will explore intellectual property and the respectful exchange of Cultural knowledge when community and stakeholders work together to maintain healthy Country.

Benefits of attending:

- Share knowledge, have a voice, be informed
- Be part of positive solutions
- Demonstrations and discussions of caring for country

We look forward to discussion with all stakeholders, and by coming together to share and exchange knowledge about fire and land management practices, we can work to reduce the risk of wildfire on Country.

Pre-planning discussions with community will commence in August 2021 with the Fire Workshops to be held in November and December 2021
