1. ATRIA – BYELLEE BESS

The PBC and Byellee BESS Pty Ltd (**Atria**) propose to enter into the Byellee BESS Indigenous Land Use Agreement (**ILUA**) and **Ancillary Agreement**.

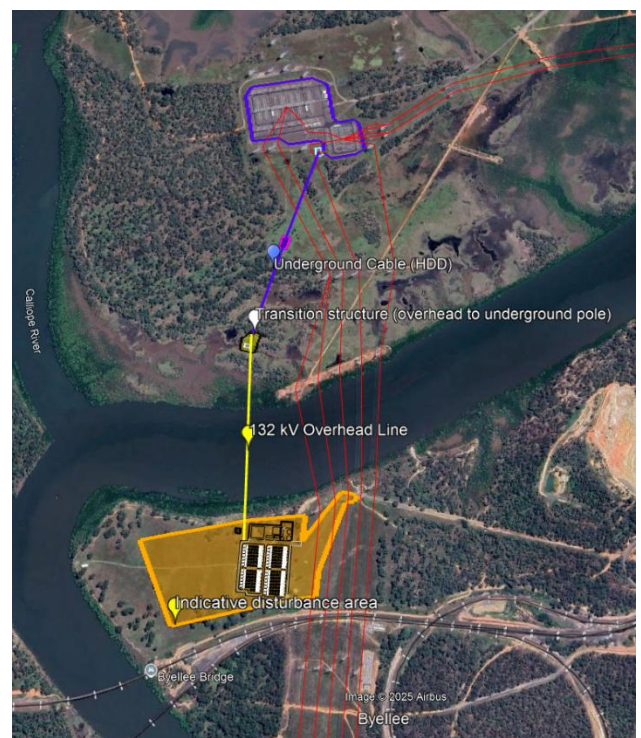

WHAT ARE THE AGREEMENTS ABOUT?

- Atria are developing the Byellee BESS (**Project**) in the suburb of Byellee, near to the Calliope River, immediately west of Gladstone.
- The Project will impact areas of determined native title under the BGGGTB Determination specifically a transmission line connecting the Project to the power grid which crosses the Calliope River. The BGGGTB Determination includes that section of the Calliope River where the powerlines would cross.
- In consideration for the PBC Consenting (on behalf of BGGGTB People) to Atria undertaking certain Project Acts for the Project, Atria will provide certain Benefits to the PBC (to be applied for the benefit of BGGGTB People). The consents will be set out in the proposed ILUA and Benefits in the proposed Ancillary Agreement.

WHAT WILL OCCUR AT THE CONSULTATION AND CONSENT MEETINGS?

- Details of the Consents and Benefits to be provided under the Byellee BESS Project ILUA and Ancillary Agreement will be discussed at the Consultation and Consent meetings.
- The BGGGTB People will be asked to consider resolutions for the authorisation of the proposed ILUA. These resolutions will be considered and decided upon by the BGGGTB Common Law holders in attendance.

2. EUROPEAN ENERGY – THREE PROJECTS

WHAT ARE THE PROJECTS?

- Bullyard Solar Farm and BESS
- Tyrone Solar Farm and BESS
- Upper Calliope Solar Farm and BESS

All three of these projects are being developed on land where Native Title was previously extinguished. This means that European Energy were not required by law to have the consent of BGGGTB Common Law Holders to proceed with these projects.

The firm position of the PBC Directors is that proponents must engage with the BGGGTB Peoples on the basis that BGGGTB sovereignty over their traditional country continues to exist, regardless of whether Native Title has been extinguished for a particular project area.

To that end, the PBC Directors have successfully negotiated the sharing of economic benefits with BGGGTB Common Law Holders on a voluntary basis under Shared Benefits Agreements for each of the three projects.

WHAT WILL OCCUR AT THE CONSULTATION AND CONSENT MEETINGS?

Further details about the three European Energy Projects and the sharing of economic benefits under the Shared Benefits Agreements will be presented to the BGGGTB Common Law holders in attendance at each consultation and consent meeting.

3. RES GROUP – WOODERSON SOLAR FARM

WHAT IS THE PROJECT?

The Wooderson Solar Farm is being developed on land where Native Title was previously extinguished. This means that RES Group were not required by law to have the consent of BGGGTB Common Law Holders to proceed with the project.

As with the European Energy Projects, the PBC Directors have negotiated a voluntary Shared Benefits Agreement which provides for the sharing of economic benefits by RES Group.

WHAT WILL OCCUR AT THE CONSULTATION AND CONSENT MEETINGS?

Further details about Wooderson Solar Farm and the sharing of economic benefits will be presented to the BGGGTB Common Law holders in attendance at each consultation and consent meeting.
